

The slimmest central vacuum pipe on the market

With Slimline vac a lack of space is no longer a problem!

WHAT IS SLIMLINE VAC?

It's central vacuum pipe system conceived and developed by SACH to allow the installation of a central vacuum system where there is insufficient space to install standard diameter central vacuum pipe.

WHERE CAN YOU INSTALL IT?

SLIMLINE VAC can be installed in complete lengths wherever space is at a premium. Within plasterboard walls, fitted furniture, small spaces behind furniture, under the floor... Slimline is ideal for anywhere where there's a shortage of space.
